

Cathedral "Halo Of Fire"

Land of suffering beneath a rotting sky
Witches are burning, black flags fly
Smoldering pyre of evil empire
Infernal darkness, host of mankind

Enemies of God, skulls stacked high
Sinners, non-believers, liars must die
Crucifixion of Satan's children
On the holy one's day of retribution

Yeah, oh yeah, the end of the world draws near
Yeah, oh yeah, good and bad controlled by fear
They're cleansing the world of sin
Ridding the world of evil
By sinister and evil means
Black God of destruction is king

Halo of fire burning funeral pyre

Behold the fiery earth appears broken
Locusts swarm out from the pit now open
Abandon awakens to eternal nothingness
Halo of fire crowning his darkness
