All you love has come and gone,  
And everything that you know has come undone,  
You better have fun,  
When the truth is on the run,  
Cause you lie to yourself and everyone,  
You better have fun, you better have fun,  
You better have fun, you better have fun,  
You better have fun, wow,  
Count your friends, it won't take long,  
Including yourself you'll find you only have one,  
You better have fun,  
So listen to me, for what it's worth,  
When your clouds lost it's silver lining,  
It's gonna get worse, it's gonna get worse, yeah,  
You better have fun, you better have fun,  
You better have fun, you better have fun,  
All right fellas, fun, you better have fun,  
Better have fun, yeah you better have fun,  
You'd better have some fun, you better have fun,  
Fun, fun, yeah, you're the one.
