Blazing ball of fire, final bang ignites  
Fleets of hungry angels feast on earth like flies  
Burning soul of karma, furnace of mankind  
Human skull and crossbones, treasures left behind

Holy Father reaps earth's seed  
Sacred Mother spreads his disease

Religious inferno, burial of mind  
Mental crucifixion, love destroyed by lies  
Decomposing morals mummified in time  
Lord of retribution, judge us for our crimes

Holy Father reaps earth's seed  
Sacred Mother spreads his disease

Master of ceremonies  
Awakens from eternal night  
For our sins we pay the price  
Society it's time to die, oh

Yeah, fuck, melancholy emperor, king of our demise  
Arises from deep shadows bearing end time scythe  
Skull of ancient wisdom, cloaked in funeral sky  
Spreads his wings wide open, engulfs the cosmos wide

Holy Father, reaps earth's seed  
Sacred Mother spreads his disease

Holy Father, reaps earth's seed  
Sacred Mother spreads his disease
