"Phaser Quest"

Visit "[Phaser Quest](#)" on MotoLyrics.com

Starlight laser points at you
Sing to the ghost of summers blue
Lay back, transcend into the moon
Mother of wisdoms' holy tomb

Phase your mind, let it take you away
Into the ocean in your mind
Back in time, take it phaser quest
Endless visions, million miles high

Robot systems in control
Dissect your soul of golden rules
Nature groovin' by your side
She gave you wings, now learn to fly

Phase your mind, let it take you away
Into the ocean in your mind
Back in time, take it phaser quest
Endless visions, million miles high

[Incomprehensible]

Sun shines eternally in you
The darkest day is silver too
Straight line into the galaxy
Spirals and circles, harmony

Phase your mind, let it take you away
Into the ocean in your mind
Back in time, take it phaser quest
Endless visions, million miles high
