The serpent  
She writhes in knowledge  
for rebellion and heresy  
The serpent  
She thrives on knowledge  
for beauty and ecstasy  
The night contains me  
Exalts me, promises me  
The tender touch of the serpents dreams  
O' to dark foundations  
Grey deliverance  
Mesmerised by descent  
Shrouded in calm  
Fabled curses plunge to depths untold  
I conjure bind and charge thee to heavens  
unknown(entombed)  
O' yea serpent eve  
Gather to the lords of facade  
Beneath the cross of false  
Crawl to the figure speared  
Wither within it's name  
Raise the current  
Clear the stream  
Herald the sound  
Of the serpent dreams  
Into the night for the serpent eve  
Psalms for the spirit  
Charms for the calling  
We're neophytes for serpent eve
