

Cathedral "Ultra-Earth"

Visit "[Ultra-Earth](#)" on MotoLyrics.com

Bright red mist shrouds the world - streets in flames,
Robots taking control - human slaves
Auto-mechanical man - human clone,
Technological plan - just beginning
Withered sun overhangs - moon on fire
Universe in reverse - Ultra Earth
Clockwork hearts, plastic souls - breeding fast,
Remote control embryo - manufactured
Cybergod satellite - looking down,
Thought police film your mind - live transmission
Withered sun overhangs - moon on fire
Universe in reverse - Ultra Earth
See earths fate through the mist of a burning pyre
come with me, the inferno will take us higher.
