I've Gotta Find a Love
Promise me you'll never leave me
Promise me you'll never go (Promise Me)
Promise me you'll never leave me
I'm in your flow
Promise me you'll never leave me
Promise me you'll never go (Promise Me)
Promise me you'll never leave me
Can't look no more
Went into a city
I did not look for love
Thought I'd found it
Was it a blessing from above (blessing from above)
A blessing from above
I've got to find a love
Of my own(I've got to find a love)
No matter how far
Or how long
Spoken: Sweet thing you know I gotta find a love

I'm on the run
I'm having fun
Don't be fooled
'Cause everybody needs someone
Everybody needs someone
The feeling's for lovers
Lookin' for romance
Knew I couldn't trust you
But I, I had to take the chance (had to take the chance)
I had to take the chance

I've got to find a love
Of my own (I've got to find a love)
No matter how far
Or how long
I'm on the run
I'm having fun
But don't be fooled
'Cause everybody needs someone
Everybody needs someone
When it all ended
Took me for a whirl

Soon I'll be over this

Or be a sad and lonely girl (sad and lonely girl)

A sad and lonely girl

I've got to find a love

Of my own (I've got to find a love)

No matter how far

Or how longÃ¢â€Œ.

I'm on the run

I'm having fun

(Spoken: But don't be fooled y'all)

'Cause everybody, everybody needs someone

Everybody needs someone

I've got to find a love

I've got to find a love (gotta find a love)

Hey can you find a love

Hey can you find a love(can you find a love)

I've got to find a love

I've got to find a love (gotta find a love)

Where can you find a love

Where can you find a love

Rap:

So you're looking for a love

in the club tonight

Well you gotta hold on

'Til the time is right

'Cause you never know the moment

When the one is there

Waiting and watching just to capture your stare

If you wanna find a love that's devoted and true

The best place to start is inside of you

'Cause you just can't control when the one comes along

So get yourself together, hold on, and be strong

Promise me you'll never leave me

Promise me you'll never go (Promise Me)

Promise me you'll never leave me

I'm in your flow

Promise me you'll never leave me

Promise me you'll never go (Promise Me)

Promise me you'll never leave me

Can't look no more Vamp out: I'm looking for a

loveÃ¢â€Œ..
