Each time you open your mouth  
I want to rip your heart out  
Each word you say to me  
Is designed to make me  
Hate myself worse than I  
Have ever hated you?  
With you the scene is a battlefield  
Death to all who don't look like you  
But you wear a uniform too  
With you the scene is war  
You say that were face  
You say that were talentless  
But you dance just the same  
You are a coward  
You don't want a unity  
All you want is uniformity  
So much for your  
Claims of acceptance and brotherhood  
You are a heartless snake  
I hope one day  
You face your vision and it destroys you  
Like the dream you claim to embrace  
I hope one day your scene destroys you
