Magnolia, Magnolia,
I guess I never told you
You're smiling
I've been steady pulling for you
To make amends
With all the friends who told you
That selling out was wrong

Roberta, Roberta,
I didn't mean to hurt you
You're easy
If need be I'll send someone a-searching
Nevermind your heart
Nevermind your soul
You're a rainbow

The spaceman, spaceman
Spends his time a-racing
Chasing stardust
A million miles away
And when his air runs out
He'll have turn around
He'll fall all the way down
To the ground

You can leave me
In orbit
Til I'm nothing more than
The one the radar's lost
The one the radar's lost
The one the radar's lost
On the ground

Together, together
We're so very clever
Flip nickels, the weather
It rains in the fountain
I guess you never knew
There's someone like you
Around every single corner
And I'm so fucking bored

You can leave me in orbit
Til I'm nothing more than
The one the radar's lost
The one the radar's lost
The one the radar's lost
On the ground

Goodbye now, goodbye now
Go ahead and close your eyes now
You're frozen from skating too far out on the ice
When someone pushed you down
There was no one else around
No one to pick you up
From icy waters

Please bring me down
Please bring me down
Please
