"My Love For You"

Visit "[My Love For You](#)" on MotoLyrics.com

My love for you
Is higher than the stars above
And my love for you
Will meet you where you are

Why do I feel this way
Why do I love you the way I do

My love for you
I think I love you so
My love for you
I think I love you so

Tell me why I feel this way
Everytime you glance my way
With you I wouldn't, couldn't change a thing
You are my, you are my only need

And my love for you
Is higher than the stars above
And my love for you
Will meet you where you are

Why do I feel this way
Why do I love you the way I do
My love for you
I think I love you so
My love for you
I think I love you so
My love for you
I think I love you so
