We are the small children of Earth, all our searching - what is it worth?  
Why do the birds find their way home when I'm always bound to roam?

We are the small children of Earth, all our crying - what is it worth?  
I have no wings, I'm tied to the ground, and I know there's much to be found

I will follow starlight, wish upon my star  
Take me home, my star bright, I have roamed so far  
I will follow starlight, wish upon my star  
Take me home, my star bright, I have roamed so far  
Roamed so farâ€¦!

We are the small children of Earth, all our fighting - what is it worth?  
If you're for love, shout it all out, break this silence that's hanging about  
We are the small children of Earth, all our searching - what is it worth?  
How do the birds find their way home? Am I forever bound to roam?

I will follow starlight, wish upon my star  
Take me home, my star bright, I have roamed so far  
I will follow starlight, wish upon my star  
Take me home, my star bright, I have roamed so far  
  
(I will follow starlight, wish upon my star)  
Take me home, my star bright, I have roamed so far
