How could you know how lost I was
I never showed anyone
No one could reach me until you made it through
Don't wanna die before I live
Don't wanna take before I give
I wanna feel the way I do when I'm with you

(Chorus)

Be the one
Now before the moment's gone
Break me down and wake me up inside
Set me free
Don't let the darkness cover me
Be the one to make me come alive, be the one

I knew what love was all about
And did my best to shut it out
Thought I could never hurt again
Wouldn't let it in
But I believe there's something true
Something real to hold onto
And now I know, I'm ready to let go
I know you could

(Chorus)

Be the one to make me love again
(Whenever we're together it feels like home)
Be the one to make me love again
(Whenever we're together it feels like home)
I don't wanna be alone
I don't wanna run anymore
I wanna fly
(We're forever, we're together, we're forever)
Be together... I wanna fly

(Chorus)

You're the one to make me come alive
Be the one
