"Breathe Underwater"

I can swim like Neptune's daughter
I can Breathe Underwater
But I don't have the power to bring you back to me
Please come home
Please come home

(Chorus)
I know how to Breathe Underwater, see forever
I know how to Breathe Underwater, but nothing matters
Without you

I can find beneath the oceans
Hidden treasure, secret emotions
But I don't have the power to tell you just how I feel
Please come home
Please come home

(Chorus)

I can find sunken treasure, watch it glitter
I know how to Breathe Underwater, what does it matter
Without you

Please come home (I love you)
Please come home

(Chorus x2)
