I've been waiting patiently all winter
Plucking paper daisies until summertime
Will the melting snow lead me to your door
Help our garden grow like it did before

(Chorus)

Love me, love me not
Tangled up in guessing games
Tell me is it love that we got
Cuz I'm drowning in the pouring rain
Like a daisy in chains, a daisy in chains

I've been laying down in fields of thistles
Making my bed where roses used to bloom
Staring at the sky hoping for a sign
Watching clouds go by so the sun will shine

(Chorus)

Words are spoken promises broken
Sowing the seeds of doubt
Please talk to me if we're meant to be
Then we can work it out

Love me, love me not
Tangled up in guessing games
Tell me is it love that we got
Cuz I'm drowning in the pouring rain
I can take just about anything
But there's some things I can't explain

Like a daisy in chains
A daisy in chains
Like a daisy in chains
I've been waiting
Patiently all winter
