Some like it hot  
Last born of a fire horse  
First to be what I'm not  
But my blood runs it's own course  
Like flint and powder must ignite  
It's chemical, earth and sky  
I don't ask questions, I don't ask why

(Chorus)

I would hold you, circle and surround you  
Take you in my arms never let you go  
I would've told you the second that I found you  
I would stop my whole world to be your Go-To Girl

You wield the unholy lesson  
That won't teach until I learn  
Every season, everything  
Turns and changes, sun and rain  
I'm so frustrated. I am so contained

(Chorus)

And I feel this love's gonna heal me  
And I feel this love's gonna heal me

Spirit, matter, heart and soul  
You, me, God, who's in control?  
I don't have answers will I ever know how to

(Chorus)

I feel this love's gonna heal meÂ...
