"You Run"

I've been watching you
I've been watching you run.
I've been standing here
Standing here undone.
Gypsy soul you'll never settle down.
Oh like water down a raging stream
Like an old time reel on a movie screen
You run You run

I been letting you
I been letting you go.
Something so out of control
I can't tie down.
Someone so far gone
Ooh like ice cream on a sunny day
Like a little boy let out to play
You run You run

I've been driving
Driving in my car.
I've been watching the
Headlights and the stars.
I've been thinking 'bout the way it was
You run

Like water down a raging stream
Like an old time reel on a movie screen, yeh

Like ice cream on a sunny day
Like a little boy let out to play
You run You run.
