"When Arms Form Wings"

Visit "[When Arms Form Wings](#)" on MotoLyrics.com

You know I'm right inside you, forgiving everytime that
you,

Do what you want to do. you know it might come to,
A time when you might have to choose,
Which ways the right way for you

Someday when these two arms form wings
To take us all away, I'll take us all away
Someday when this road clears I'll drive
To take us all away, I'll take us all away

Alone I will take carry us all to the sun
And we're never looking back
Alone I will save us all from the flood
And we're never coming back

You know I'm right inside you, forgiving everytime that
you, do what you want
One day I'll know which way to go
To take us all away, I'll take us all away
I will return with these two sings
To take us all away, I'll take us all away

Alone I will take carry us all into the sun
And we're never looking back
Alone I will save us all from the flood
And we're never coming back

We're never coming back...

And we're never looking back
And we're never coming back

And we're never looking back
Alone I will save us all from the flood
And we're never coming back
