"Would You Care"

Visit "[Would You Care](#)" on MotoLyrics.com

Get used to it, Katy
Everyone trashes you under the table
As they're smiling at your face
Cruel words like a stun gun
Life can be hum drum
Knock to the ground, oh

But if you got them talking
Staring and stalking
You know it's working
But you only get a minute or two

'Cause nobody hates you
Are you aware
You're just one note in a symphony
Nobody needs you
Nobody's there
Your name won't go down in history
Live on in infamy
But to the point
Would you care
Would you care, would you care

Get used to it, Katy
People's attention
Sure is focused on you
You're the subject of the day
They need something to speak about
No need to freak out
Tomorrow is over
Today you got them talking
Staring and stalking
You know it's working
But you only get a minute or two

'Cause nobody hates you
Are you aware
You're just one note in a symphony
Nobody needs you
Nobody's there
Your name won't go down in history

Live on in infamy
But to the point
Would you care

Mean worlds, mean words, mean thoughts, meanwhile
Don't let it get to you
Girl, don't cry
They lie
Don't let it get to you
Get used to it

Nobody hates you
Are you aware
You're just a note in a symphony
Nobody needs you
Nobody's there
Nobody, nobody, nobody

'Cause nobody hates you
Are you aware
You're just a note in a symphony
Nobody needs you
Nobody's there
Your name won't go down in history
Live on in infamy
But to the point
Would you care
But to the point
Would you care
Would you care, would you care
