You can close you're eyes and tell me
That you are a visionary
And maybe you're a little scarey
But you take my breath away
When you say you'll always be there
It paints such a lovely picture
But no matter how you frame it
It's still pornography

Nobody seems to hear
Till I scream and shout
Evan if you tie me down
And you blow my candle out

I'll still glow
I'll still glow
I'll be the perfect someone that you'll never know
I'll still glow

I see this girl with so much anger
Pacified by holding starngers
Making peace with all her danger
By looking in the mirror
The pureness in my name is gone now

You've taken it too far but somehow
I'll lick my wounds and take the last bow
And hold my cold left hand

There's so many things
That you rant about
The only thing I know for sure
If you blow my candle out

I'll still glow
I'll still glow
I'll be the perfect someone
That you'll never know
I'll still glow

[guitar solo]

I'll still glow
I'll still glow
I'll be the perfect someone
That you'll- that you'll never know

I'll still glow
I'll still glow
I'll be the perfect someone that you'll never know
I'll still glow
