Oh no no no, I must up and go
I'd love to watch the show
But I need to
I close my eyes so I can taste this
I raise the white flag
And make my one wish
And I found fire
And you would love for me to stay, but
Oh no no no, I must up and go
I'd love to watch the show
But I need to
FLY, far away, high and lonely
I don't mind taking it on
Never look back on this
I look at times so I can taste this
And in these dark times I realize this
That I'm not fine
And you would love for me to stay
Oh no no no, I must up and go
I'd love to watch the show
But I need to
FLY, far away, high and lonely
I don't mind taking it on
Never look back on this
Ohhhhhhhhhh
No, can't take this part of me
No, can't take this smile from me
No, can't take this fire from me
No, can't take what's mine from me (x2)
Can't take this world from me (repeat)
