somehow we fell in
and there's no way out
and no way in
for anything else
but we've forgotten
what this was all about
and now i've lost you through self doubt

fate used to be just knowing that i'd always find you
but destiny don't always come true
i try to remember how euphoric your skin felt
but i was so sure that you were my cure

i'm searching for you
but this time maybe
it could be that you actually lost me

fate used to be just knowing that i'd always find you
but destiny don't always come true
i try to remember how euphoric your skin felt
when you were so sure that i was your cure

fate used to be just knowing that i'd always find you
but destiny don't always come true
i try to remember how euphoric your skin felt

fate used to be just knowing that i'd always find you
but destiny don't always come true
i try to remember how euphoric your skin felt
but i was so sure that you were my cure

that i was your cure
and you were my cure
