Gonna dig me a hole in the cold black earth,
Sleep and dream of a another rebirth
There's no cure for what I've got
And the healing of the devil is mighty hot
"Cheer up loathsome M"

Rely on me to b*tch and moan,
I wanna stay in and I wanna be alone
Never could stand Saturday night,
Too much noise and too much light
"Cheer up loathsome M, don't be afraid, afraid, afraid"

Hey hey hey here comes the rescue,
They are letting me loose from the house of blues
Hey hey hey here comes the aid,
I am blessed I got dressed and I'm standing the test
Hey hey hey, it's gonna be all right,
Hey hey hey, it could be all right...

Some wanna save me others enslave me,
Kids need to shape up and I need to wake up
I've looked at myself both for and aft,
But I keep waking up on Medusa's raft
The bell rings once and I'm ready to go.
The bell rings twice and I'm shrinking in size
By the third my vision is blurred,
The bell won't stop so I'm blowing it up
"Cheer up loathsome M, don't be afraid, afraid, afraid"

Hey hey hey here comes the rescue,
They are letting me loose from the house of blues
Hey hey hey here comes the aid,
I am blessed I got dressed and I'm standing the test
Hey hey hey, it's gonna be all right,
Hey hey hey, it could be all right,
Hey hey hey, it's gonna be all right,
Hey hey hey, it could be all right...
