The sun is up for me  
But I know a beauty that shines it out  
I can hardly see  
When she is up letting her veil down

But it could ever be  
I'm just a shepherd hiding from the hounds  
She's a fantasy  
With flowers and bows, pretty coats and a silver crown

Every day goes by  
The sun and the moon making out in the sky  
We keep each other warm  
Snuggling up in the dark Mr. Sheep and I

I join my favorite dream  
She sings me lullaby's all through the night  
And wakes me with a kiss  
Sweet taste of apples and wild strawberries  
I'm in love with her majesty

So whatcha gonna do?  
I wanna build the dream for two  
So what's it gonna be?  
I'm jumpin' up and down, but she can't see  
I think you got a chance  
Just move on over and ask her to dance!  
I got silly feet and a lousy beat so how on earth could I  
make her want me

I think it's gonna rain today  
And I'm here on one hill and she's on the other  
The clouds are in my way  
As the sky opens up  
Letting her veil down

Covering my queen  
I'm still just a shepherd, so why should I bother  
The valley in between  
Gets deeper and deeper as time passes by  
Gonna love her til I die

So why don't I  
Just make like a prince and give it a try

So what's it gonna be?  
I could slingshot myself like a bumblebee  
So watcha gonna do?  
Use Mr. Sheep as a parachute  
One the count of three  
I'm off to claim my fantasy  
In my best clothes buttoned up with a rose  
I'm on my way to make you love me

I'll be your man  
In your castle made of sand  
Watch your head, my love, I'm coming over  
Just so that I can hold your hand
