Remember once upon a time
I thought that you were mine
Remember we said we were meant to be
So different from the rest
I tried to do my best to please you
Oh baby how I tried

Now you're always half a kiss away
And even when our lips meet you're always just out of reach
Tryin' to tease me playing with my mind
And though you're bad for my health I keep on telling myself

I took a crazy chance, crazy chance on your love,
I took a crazy chance, crazy chance on your love

Now I'm knocking at your door
Can't take this anymore
You've got me on a losing streak
It's all been said and done

No use to carry on
Can't take it I've got to let you know

If you asked me for another day
If you went down on your knees and begged me to please
Couldn't stay I know I'd lose my mind
I really must have been blind. it's really over this time

(repeat chorus)

I put my trust in you baby and you let me down
All the time I was with you I was on shaky ground girl
Whispering it will be alright
Like the way you said to me on the day I met you

(repeat chorus to fade)
