Do you know it, I think you do,
We can't go on to ignore the fact i'm still in love with
you,
Your the sunshine in my life, you brighten up my day
girl,
You leave me on a natural high,

Oh, win or lose, it has to be worth a chance,
Of makin' you mine, all mine,
I roll my dice, I place my bet,
There's no way I could ever regret loving you,

Chorus
Your all that I want, your all that I need,
Your everything to me, yeah
Your all that I see, in you I believe,
Your everything to me

So I write this book, day by day,
Page after page girl, devoted to your very special way,
Just give me the word and i'll be right here,
Lose you inhibitions now i'll take you there,

Oh, win or lose it has to be worth a chance,
Of makin' you mine, all mine,
I roll my dice, I place my bet,
There's no way I could ever regret loving you,

Repeat Chorus x2

Your everything to me, aaah
Your everything to me, everything,
Your everything to me, everything to me, yeah
Your everything to me

Repeat to fade
