I remember the first time I saw you
How could I forget
It wasn't long before I got to know you
I felt the same since we met

Here we are now and something is different
We're more than just good friends
Every moment I hope lasts forever
I don't want this love to end

I'm tripping over myself, I can hardly believe
For the very first time she's mine, whoa, yeah
Girl, it's so right, yeah, for the very first time
That girl has got everything, she's so perfect for me
For the very first time she's mine
Oh yeah, oh, it's so right for the very first time

There were times when I thought that I'd lost you
You found somebody else
Loving you was just out of the question
'Cos we were just good friends

And they said that you'd never be mine
How could they be wrong
'Cos I'm here and I'm flying so high
And I've made you mine, all mine

I'm tripping over myself, I can hardly believe
For the very first time she's mine, whoa, yeah
Girl, it's so right, yeah, for the very first time
That girl has got everything, she's so perfect for me
For the very first time she's mine
Oh yeah, oh, it's so right for the very first time

Break it down
For the very first time
I have made you all mine
