Huh, I got this special kind of something
Somebody said, that I would make it big
Somebody said, I would be the kid
To go all the way, to go all the way

My Daddy said, "Learn, and you will go far"
You gotta reach out for the highest star
That's what she said, so, that's what I did

And nobody said that, I would feel this pain
Nobody said that, I would feel this way
And now, I need to explain

I've got something to give
I need someone to hold
I need a special kind of something
'Cause I don't wanna to be alone

I wanna learn, how to love
I need to know, how to care
I got a special kind of something
That I just need to share

I didn't really think about the consequence
I got a one-way ticket, out of innocence
But that was my dream, and this is my dream

I can't spend another night on my own
Never in my life, felt so alone
Tell me, can I explain?

I've got something to give
I need someone to hold
I need a special kind of something
'Cos I don't wanna to be alone

I wanna learn, how to love
I need to know, care, how to care, oh yeah
I got a special kind of something
That I just need to share

And if I keep pretending

How will you know, oh, oh
The message I keep sending
I got this special kind of something
That I need to show, oh

I've got something to give
I need someone to hold
I need a special kind of something
'Cos I don't wanna to be alone

I wanna learn, how to love
I need to know, care, how to care, oh, yeah
I got a special kind of something
That I just need to share

(Got something to give)
Something to give
Someone to hold
(Need someone to hold)

Special kind of something, don't wanna be alone
(I need special kind of something)
Oh, no
(I don't want to be alone)

(Gotta learn how to live)
Learn how to love
Know how to care
(Need to know how to care)

Special kind of something
I just need to share
(I got a special kind of something)
(That I just need to share)

(Got something to give)
Something to give
Someone to hold
(Need someone to hold)

Special kind of something, don't wanna be alone
(I need special kind of something)
I don't want to be alone

(Gotta learn how to live)
Learn how to love
Know how to care
