(music: Sandro Silva/Marcos Vinny/Fabio Silva - lyrics:
Gerson Grecco/Fabio Silva)

They used to say

"Dreams are for fools! Do just what we want to"

Used to defame it

They just can't believe and call it Street of Dreams

Street of Dreams - follow this way

Street of Dreams - it's never too late

Street of Dreams - follow the signs

Walk this street - only reach who tries

Defiance is for the braves

The world is for you - do just what you want to!

I know it's so hard

I felt the same but I still play the game

Street of Dreams - follow this way

Street of Dreams - it's never too late

Street of Dreams - follow the signs

Walk this street - 'cause this could be a dream

Don't you let them take it - show me all your youth

Don't you be afraid - make your own rules
