I feel like ice
It's broken underground
You say it twice
Eventually turn 'round

Always it's the same
You never understand me
Understand me

It's too confused
And this is never found
I'm just like you
Inject me when I'm down

Always it's the same
You never understand me
Always it's the same
Your intravenous life is easy
Is easy

Always it's the same
You never understand me
Always it's the same
Your intravenous vein is easy
It's easy
