Tell yourself how I love
I could go, here's the door
Dust on bell won't ring, destination calls
Drive to me and bring, disappointment falls
And I will breathe to live, bite the lip

To the one for who I feel
Here's some time, we could kill
Tush to time don't go, we could use it all
Pawn the diamond ring
No space for you to cling

In these four walls, I give it all
Chicken come over here, deep inside

If I could have a wish
This distance would be missed
Spinning like a wheel, ooh

The only thing to fear
If the distance disappears
Nothing left to say, hey

And I will, breathe to live
Bite the lip
The dust of life is mixed
Driftin' like a mist
All the night is clear, desperations near

In these four walls, I give it all
Chicken come over here, deep inside

I left my heart to roam, I should go home
But we could call for more, ooh
It's the distance, I can't bear
There's no more hurt to fear
There's no more time to say, hey

In these four walls, I give it all
Chicken come over here, deep inside
