Holy angel  
My guardian angel  
Like never before watchin' over me  
The world's become a whale  
Wants to swallow me I said

The angel smiled  
'Cause he couldn't deny  
It there comes a time he knows  
It takes a while then into my arms  
It all would fly though there's time for everything

Life is full of surprises  
My darling and the angel's silence frightened me  
Life is full of hidden danger honey  
I didn't know what fate would bring

Holy angel  
My guardian angel  
Just leave me now and fly to him I beg  
For he must not leave me today  
I'd die without his lips I said

The angel smiled  
Cause he could't deny it  
That true love almost belonged tome  
But I could never wait  
But there's time for everything

Life is full of surprises  
My darling and the angel's silence frightened me  
Life is full of hidden danger honey  
I didn't know what fate would bring
