Homing the rocket  
I'm not where you come from  
Where you come from you speak with your wallet  
Where you come from you're driven by logic  
Where you come from your prize is to pocket  
And I think it's amazing that I could have this with you  
And I think it's amazing what the rocket can do  
But I'm physically not impressed  
And I'm spiritually not aroused  
I could get more kicks from a Mexican dish  
Than I'm ever gonna get if I'm haning around with you  
Homing the rocket  
Staying out homing the rocket  
I'm not where you come from  
Where you come from they leave in the morning  
Where you come from they never say no  
Where you come from they come and they go  
As they please  
And I think it's amazing that I could have this with you  
And I think it's amazing what the rocket can do  
But I'm physically not impressed  
And I'm spiritually not aroused  
I could get more thrills from a vitamin pill  
Than I'm ever gonna get if I'm hanging around with you  
And I'm sure it's amazing that I could have this with you  
And I'm sure it's amazing what the rocket can do  
But I'm physically not impressed  
And I'm spiritually not aroused  
I could get more thrills from a telephone bill  
Than I'm ever gonna get if I'm hanging around with you  
I'm hanging around with you  
I won't hanging around with you  
Homing the rocket  
I won't be hanging around with you  
Stayin' out homing the rocket
