People see what they want to see
And they make it worth to some degree
But that ain't the case with you and me
We've got something that's strong and wonderful

People look all over town
Long until the sun goes down
But it seems to me, that what we've found what they
are searching for

(Chorus)

What we got
All we need is
Baby like a circle complete
Take me down that high road
Where love is sweet and
Life is about a perfect moment

We were meant to be eternal

People say nothing lasts
But rules were meant to break like glass
Even if the time went past
We would still be the same

(Chorus)

We were meant to be eternal
Way beyond the twelfth of never
That's how long we'll be together now

(Chorus)
