My Love is on Fire
My love is on fire
My love is on fire

I can't stop to think of you tonight
I wanna touch your skin and make you feel alright
? Me I won't go
You will see where we go
Cos tonight is the night is the night

My love is on fire
The one I desire
I just want you to see
What is in me

My love is on fire
The one I desire
I just want you to be
Crazy for me

And I will make you love tonight
And I will try to stop the time
I will be yours, you will be mine
Cos tonight is the night

Want to know I'll never feel alright
You know I could go everywhere to change your mind
But? Me I won't go
You will see where we go

Cos tonight is the night is the night

My love is on fire
The one I desire
I just want you to see
What is in me

My love is on fire
The one I desire
I just want you to be
Crazy for me

And I will make you love tonight
And I will try to stop the time
I will be yours, you will be mine
Cos tonight is the night

My love is on fire
My love is on fire

My love is on fire
The one I desire
I just want you to see
What is in me

My love is on fire
The one I desire
I just want you to be
Crazy for me

My love is on fire
The one I desire
I just want you to see
What is in me

My love is on fire
The one I desire
I just want you to be
Crazy for me

And I will make you love tonight
And I will try to stop the time
I will be yours, you will be mine
Cos tonight is the night
