(Feat. Stu Stone)

Breathe  
Just Breathe  
Breathe  
It's alright  
Breathe  
You're doing fine  
Just breathe  
And one more time  
Breathe  
You're doing fine  
Doing fine...  
Breathe...

You are not alone (4x)

You are not alone  
I'm right here to catch you when you fall (3x)

I'm right here to catch you when you fall...in love

I pop, I roll  
I'm in control  
Real like a superstar  
I feel it in my soul  
Can't feel my legs  
Can't feel my feet  
Can't feel my head  
I feel complete

I see you dancing  
Moving left, moving right  
I'm in a trance  
And Imma move towards the light  
My heart beat beat  
My head be flow  
I'm in control and know exactly where I'm going

Keep telling me to breathe  
It's alright  
Breathe

You're doing fine

Just breathe  
And one more time  
Breathe (4x)

Breathe, breathe, breathe

You are not alone (4x)

You are not alone  
I'm right here to catch you when you fall (3x)

I'm right here to catch you when you fall...in love

I'm out in orbit  
In outer space  
I'm feeling special  
I'm off my face  
My mind keep buzzing  
I'm on my sweets  
I'm on my grind  
And I ain't talking bout my teeth

I see you dancing  
Moving left, moving right  
I'm in a trance  
And Imma move towards the light  
My heart beat beat  
My head be flow  
I'm in control and know exactly where I'm going

Keep telling me to breathe  
It's alright  
Breathe  
You're doing fine  
Just breathe  
And one more time  
Breathe (4x)

Breathe, breathe, breathe
