"Petal To The Metal"

Visit "[Petal To The Metal](#)" on MotoLyrics.com

I'm like a 454 with the four on the floor
Deuce coupe comin' at ya avoiding the capture
Far from stock I'm chopped and ready to rock
In the city of steel catch me cruisin' down the block
But nowadays is difficult I'm out on my own
Drive an 86 jetta hopin' that I could do better
But my car keeps me humble in the concrete jungle
Despite the wear and tear it seems to always get me
there

Rebuilt the motor 'cause she decided to blow
And what do you know someone stole my stereo
When it's time to go I put my foot on the floor
Let the diesel do the work I ain't complaining no more
Highways and straight-aways off roads and open
roads
No matter where I go I'll be makin' the show
And it's kinda like life when life treats you good
It's not what on the outside it's whats under the hood

Put the pedal to the medal and I'm off ain't never
getting lost
Which way will I turn when roads cross
Put the pedal to the metal a little more and it's scary
But one thing's for sure keep my foot on the floor
Put the pedal to the medal and I'm off ain't never
getting lost
Which way will I turn when roads cross
Put the pedal to the metal a little more and it's scary
But one thing's for sure keep my foot on the floor

It doesn't matter what you drive it's how you drive what
you got
Discipline you could win just let the tires spin and begin
The journey of life with each stride meet me on the
other side
Let me know when you arrive sometimes we collide
Be sure that you're insured got the back up plan
alternative program
Who I am doesn't reflect material wealth my vehicle
approaches stealth
All the fools want to show off and shoot off their

mouths
I'm comin' with the wickedness so I can take them out
with my style
style style style style when I bust the true school watch
this hip hop

Put the pedal to the medal and I'm off ain't never
getting lost
Which way will I turn when roads cross
Put the pedal to the metal a little more and it's scary
But one thing's for sure keep my foot on the floor
Put the pedal to the medal and I'm off ain't never
getting lost
Which way will I turn when roads cross
Put the pedal to the metal a little more and it's scary
But one thing's for sure keep my foot on the floor
Won't stop drivin' till it's over still be crusin' when the
sun goes down
Won't stop drivin' till it's over still be crusin' when the
sun goes down

Put the pedal to the medal and I'm off ain't never
getting lost
Which way will I turn when roads cross
Put the pedal to the metal a little more and it's scary
But one thing's for sure keep my foot on the floor
Put the pedal to the medal and I'm off ain't never
getting lost
Which way will I turn when roads cross
Put the pedal to the metal a little more and it's scary
But one thing's for sure keep my foot on the floor

Put the pedal to the medal and I'm off
Put the pedal to the medal and I'm off
Pedal to the medal and I'm off

With a '62 bird and I'm out like that and I'm out
With a '62 bird and I'm out like that and I'm out
