I can't believe
Went through my whole live never feeling this way
'Til you came to me
Gave me your heart and you brighten my day
Now I'm complete
Holding you close in my dreams everynight
And I can't wait
To love you sincerely for the rest of our lives

Chorus:
Cause it fits so well, feel so right
Surely your the one I waited for all my life
That it fits so well, feel so right
Baby your the love of my life

I never knew
The joy and the thrill of the love after sight
And I'm consumed
Kisses from you when your holding me tight
And I'm flying high
I don't intend of ever coming back down
Until stars don't shine
Heavens descended or the mountains have drowned

(Chorus)

I don't intend on ever letting you go
I'm happier then I've ever been and it shows
Nothing compares to all these feelings I have
That it seems to me that I was born to be holding your
hand

(Chorus)

That it fits so well, feel so right
Baby your the love of my life

That it fits so well, feel so right
Baby your the love of my life
