I haven't seen you for a while
Where you been around this time
I miss your loving arms, and your charming smile
Why did you chose to leave me behind
Maybe you'll come back to me somehow
Maybe things are to stay this way
I miss that love connection now
Baby there's just one thing that i have to say
Are, are we really over
And are, are we really through
And wont, wont you come on over
Cause i, i wanna be with you
Now i'm kickin' it with my girls
All night out just having fun
I was a fool to think that you were my world
But now i know that you werent the one
Maybe you'll come back to me somehow
Maybe things are to stay this way
I miss that love connection now
Baby there's just one thing that i have to say
Are, are we really over
And are, are we really through
And wont, wont you come on over
Cause i, i wanna be with you
I thought you said you loved me
Why do you treat me this way
Don't tell me that you're sorry
This is the last thing im gonna say
I guess, i guess were really over
I guess, i guess were really through
So don't, don't you come on over
Cause' i wont be with you
You, you-ooo
You, you you-ooo
No, no, no i can't wait
No, no, no it's too late
