{Chorus}

I don't wanna push

I don't wanna beg

But I don't wanna see you walk away

What can I do to make you see

What a love like yours would mean

I don't wanna wait just another day

To see if you can love me that way

Oh baby boy just say you do love me like I, I love you...

{Verse 1}

I don't know if friends could ever do what lovers do

Or if there's a line not to be crossed

I haven't had a crush in oh so long would this be wrong

Your in my mind and in my heart

Ooh could this be true that I would fall so hard for you

I just got to know if you could feel the same thing too

{Chorus}

{Verse 2}

My heart breaks whenever your not there do you care

If I'm round or if I'm not

Am I wishing for a hopeless dream it may seem

That your just fine with what we've got

Ooh could this be true that I would fall so hard for you

I just got to know if you could feel the same thing too

{Chorus x2}
