time to leave this town
now your dreams have all let you down
no one here will miss you now
time to wakeup and look around

used to be a lovely boy
lovely boy
lovely boy
used to be a lovely boy

turn away and turn our heads
just a hopeless dreamer she said
eyes of cloud and feet of lead
find a shore that needs you instead

used to be a lovely boy
lovely boy
lovely boy
used to be a lovely boy
time on your hands

world at your feet
no adventure left incomplete

da da da da da da da da da da da da

find a place where you can hide
from the love that holds you inside
time so unkind
like an old friend leaves you behind.

used to be a lovely boy
lovely boy
lovely boy
used to be a lovely boy
time on your hand
