I see I'm a long, long way from where I am supposed to  
be

And frankly I'm still happy here

I know where I'd rather be

So whether you're lonely like the sun

Or you rely on everyone

There's no need to be lonely

There's no need to be low

We're lines and maps and cities and songs

Feel fear the closer it comes

Till I don't know how it feels

Till I don't know how it feels

Till I don't know

A million miles from anywhere

But anyway

I don't deny the more you see

The more I try to change your mind

So whether you're lonely like the sun

Or you rely on everyone

There's no need to be lonely

There's no need to be low

We're lines and maps and cities and songs

Feel fear the closer it comes

Till I don't know how it feels

Till I don't know how it feels

Till I don't know

But I'm here whenever you say

Ever you say

Oh, little by little she blows

And that's the end of it

And little by little she blows

And that's the end of it
