I couldn't find myself
Became bitter and mean
Couldn't live with myself
Gave up all of my dreams
All my dreams

I had to let you go
Or take you down with me
I had to let you go
You deserve everything
Everything

Oh, I love you so
And you...you'll never know

Soulmates born together
The very best of friends
We were lovers on a distant planet
We'll be lovers once again
Lovers after the twilight ends

And I wish you the best
A love that's truly blessed
And I cheer you on
You're my favorite song
My eternal swan

Oh, I love you so
And you...you'll never know

Soulmates born together
The very best of friends
We were lovers on a distant planet
We'll be lovers once again
Lovers after the twilight ends

And when our lives are through
Bury me next to you
We'll be lovers again
Lovers again
Again and again and again and again
Lovers after the twilight ends

Weâ€™™ Il be lovers again
