These were my confessions  
(A message to God)  
The light begins to fade  
(It's time to go)  
Back into the shadows  
(That hard black fog)  
Where darkness has its way  
(God rest your soul)

Nothing left to tell you  
(It's all been said)  
No more songs to write  
(This silent Fall)  
Nothing left to offer  
(The wells have been bled)  
From a shadow's waning life  
(Who lost it all)

Take my words and hold them  
(Don't be afraid)  
Place them near your heart  
(And heal your pain)  
Shadow words will kiss you  
(And heal your pain)  
When your world turns dark  
(Don't be afraid)

And I kiss you  
Kiss you  
I kiss you in the dark..
