I used to think that
Life was unfair
So many crazy things going on out there
Now all I wanna do
Is just watch the river flow
Cause sooner or later
Its just gonna go where it goes
I took my chances
And it all worked out somehow
Cause what goes around
Comes around
And it's all coming back to me now
I used to wonder what would happen to me
What kind of person I would turn out to be
But all I ever wanted
Was just to have a little fun
And wake up every morning
With the one I love
My momma told me
Just do the best you know how
Cause what goes around
Comes around
And it's all coming back to me now
Well..well..well
Momma told me
Just do the best you know how
See what goes around
Comes around
And it's all coming back to me now
Yea it's all coming back to me now
Oh yea,
Do the best you know how
Its all gonna work out somehow
Took my chances
And it all works out somehow
Momma told me, do the best you know how
What goes around
Comes around
And it's all coming back to me now
