I can't wait to sleep tonight  
cuz i know that I'll find you  
I can't wait to dream tonight  
cuz I know that I'll find you there

So call in the sun, so i can find you  
and call out the stars so I can find you

This days been long enough  
and I just wanna talk to you  
This days been tough enough  
and I just wanna be near you  
So call in the sun, so i can find you  
and call out the stars so I can be near you

You come close enough  
to feel my heartbeat  
And you stay far enough  
that we can still breathe

And we call in the sun  
In our dreams  
We call out the stars  
In our dreams  
In our dreams  
In our dreams
