Its been a long day, and Im tired of the world. Its a
crazy lifelm a little unsure of this girl. So London fly me
away, my London fly away.

Have you ever had a day?

When you heart wanted to jump from your chest, but
your head got in the way. Have you ever had day, and
whats your fly away. Where you say

Heres to bad medicine that tries to numb the pain when
sleeps the only legal break from a long day. Where you
sayHeres to bad medicine that never heals the pain.
Whys sleep the only legal break from a long day?

Have you ever had a day?

When someone else has your keys and morning
melodies blur into techno beats. When pains the price
of double lives played out on a stage of compromise. In
the end whys this fool so surprised? Have you ever had
a day where you say
Heres to bad medicine that tries to numb the pain when
sleeps the only legal break from a long day. Where you
sayHeres to bad medicine that never heals the pain.
Whys sleep the only legal break from a long day?

Theres a picture on my wall of London in the fall. Its
where I go on days like these

Whats you fly away, and have you ever had a day?

When you wanted to be lonely till you got there. And
have you ever been free
