Beautiful moon so bright
I can see your face tonight
Wish you were here today
Pity we choose different ways
I've seen it all before
The evil flashing on you

It's in your eyes
It's in your eyes
See it so many times
On those sweet goodbyes
Sweet goodbyes

I stand alone in the dark
Embrace all of my life
Take all of my strength
Throw me away

It's in your eyes
It's in your eyes
See it so many times
On those sweet goodbyes
Sweet goodbyes

It's in your eyes
