All the angels 'round your throne  
Worship you and you alone  
All the stars up in the sky  
Lift the name of Jesus high

But all that I need is to be with you  
Need to know you, need to see  
Your love is breaking through  
All that I want is to spend my life on you  
Father, you are all I need.

Why do I often lose out of sight  
That you're my Father, I'm your child  
You are faithful, You are true  
Like a child I run to you

But all that I need is to be with you  
Need to know you, need to see  
Your love is breaking through  
All that I want is to be with you  
Father, you are all I need.
