# "Without Your Love"

Visit "[Without Your Love](#)" on MotoLyrics.com

Every night, when the rain is falling, a million raindrops  
keep on calling your name  
It's every night the same  
Every day, I see lovers walking  
I know they're talking 'cause we were talking the same  
It's just a lovers game  
Babe, for me it was more  
Can't you be like before?  
My one and only, don't leave me lonely without your  
love

Every night, when the moon is shining, I hope to find in  
her silver lining your name  
It's every night the same  
Babe for me it was more  
Can't you be like before?  
My one and only, don't leave me lonely without your  
love
