Come with me, let me lead the way  
I will be the one that stands beside you  
We could be, anything we dream  
As long if we keep dreaming here together  
yeah yeah yeah

We'll ride the wind and soar above the clouds  
Where we'll be free, yeah  
Come fly with me, to a place  
Where lovers never been before and you know  
It'll just be you and me...  
Fly with me, to a world  
Where noones ever been before and you know  
We won't ever have to leave...  
Come fly with me...(yeah yeah)

So here we are, where time stands still  
And a perfect moment it can last forever, yeah yeah  
Cause we both saw, the same shooting star  
We made a wish and here we are together, yeah yeah

As we ride the wind, and soar through open skies  
Now we are free, yeah  
Come fly with me, to a place  
Where lovers never been before and you know  
It'll just be you and me  
Fly with me, to a world  
Where noones ever been before and you know  
We won't ever have to leave, yeah  
Fly with me...yeah, oh  
So free, yeah, oh oh oh  
Fly with me...oh oh oh  
So free, yeah

Won't you come fly with me  
To a place where lovers never been before and you know  
It'll just be you and me, yeah  
Fly with me, to a world  
Where noones ever been before and you know  
We won't ever have to leave...yeah  
Fly with me...ooh yeah

Fly with me...yeah...
